Camp AsthmaCadabra is for boys and girls ages 7-13 who might otherwise be denied a summer camping experience because of their asthma.

Camp AsthmaCadabra's main goal is for children with asthma to have fun and enjoy a weekend camping adventure. The emphasis is to help children better understand their asthma.

Children will increase their self-confidence and enhance their ability to cope with their asthma.

In addition to traditional summer camp activities like swimming, boating, and arts & crafts, campers will participate in educational sessions on asthma and how it affects them. Topics will include: What is asthma? What is it doing to my body? They will also learn about nutrition, triggers, medications, relaxation, and controlling asthma.

Camp AsthmaCadabra is a great way to make friends, have a wonderful summer camping experience, and learn more about asthma in a fun atmosphere.
